Hi everyone.

I'd like to start with a big thank you to Craig and the board for all the hard work and effort for the last year. I don't think any organisation has ever had a more difficult year than 2020! With Covid, a new venue and a multitude of other issues it is good to get all that behind us.

This years them is Serve to Change Lives! We already have several projects that do this. Beefbank, Fun Run, Timor Leste and Rotakids. All these projects give us a opportunity to Serve to change Lives, so we are well on the way to contributing to the International Theme.

As we are all aware membership needs to be a priority. I'd like to dedicate a lot of energy to increasing our numbers this next twelve months. We spoke at the board meeting about a few ways to do this and I will be speaking at every meeting to remind us all that we need to find new members.

Thanks everyone and I'll see you all on Wednesday!

Andrew

THIS SAYS A LOT ABOUT THE INTELLIGENCE OF THE TREE HUGGERS!

Brad lives in Melbourne (Explains a LOT).....he was sick of the World, of Covid-19, those who hate China, global warming, species extinction, racial tension and all the rest of the disturbing stories that occupy the media headlines.

Brad drove his car into his garage at home, carefully sealed up around the windows and doorways of his garage, selected his favourite radio station and started his car to a slow idle.

Two days later, his neighbour realising she had seen no sign of Brad for a while, peered through the garage window to see Brad at the wheel of his car. Immediately she phoned emergency services. Police, fire and the ambulance arrived promptly.

After pulling Brad from his car and giving him a sip of water, he seemed as good as gold. Brad drives a Tesla. It now has a flat battery. He also votes Green.
